

# Independent Limited Assurance Report

## to the Directors of Wickes Building Supplies Limited

DNV Business Assurance Services UK Limited (DNV) was engaged by Wickes Building Supplies Limited to provide limited assurance to Wickes Group Plc (Wickes) over selected information in “Wickes 2023 Annual Report and Accounts” ( the Report) for reporting year ended 31st December 2023.

**Our Conclusion:** On the basis of the work undertaken, nothing came to our attention to suggest that the Selected Information is not fairly stated and has not been prepared, in all material respects, in accordance with the Criteria.

This conclusion relates only to the Selected Information and is to be read in the context of this Independent Limited Assurance Report, in particular the inherent limitations explained overleaf.

### Selected Information

The scope and boundary of our work is restricted to the Key Performance Indicators included within the Report (Page 48 for Greenhouse Gas Emissions and Page 5 for Inclusion and Diversity) for the reporting period 1st January to 31st December 2023 and listed below.

Scope 3 emissions Category 2, 4, 8, 10, 14 and 15 were excluded from our scope of assurance and we did not assess the materiality of these categories.

Key performance indicators: Greenhouse Gas Emissions	Reported value	Unit
Scope 1	19,806	tCO <sub>2</sub> e
Scope 2 (location)	9,212	tCO <sub>2</sub> e
Scope 2 (market)	3,938	tCO <sub>2</sub> e
Total Scope 1 and 2 (market)	23,744	tCO <sub>2</sub> e
Scope 3 Category 1 – Purchased goods and services	1,011,287	tCO <sub>2</sub> e
Scope 3 Category 11 - Use of Sold Products	311,436	tCO <sub>2</sub> e
Scope 3 Category 12 – End of life treatment	88,401	tCO <sub>2</sub> e
Scope 3 Other (categories 3, 5, 6, 7, 9 and 13)	40,995	tCO <sub>2</sub> e
Key performance indicators: Inclusion and Diversity	Reported value	Unit
Females in Store Leadership	33.98	Percentage
Females in Support Centre Leadership	43.54	Percentage

To assess the Selected Information, which includes an assessment of the risk of material misstatement in the Report, we have used Wickes GHG Accounting Methodology 2023 and Gender Balance Methodology Statement 2023 (together the “Criteria”) which can be found here <https://www.wickesplc.co.uk/company/responsible-business/policies-and-reporting/>

We have not performed any work, and do not express any conclusion, on any other information that may be published in the Report or on Wickes’s website for the current reporting period or for previous periods.

### Standard and level of assurance

We performed a limited assurance engagement of specified data and information using the 'Greenhouse Protocol – A Corporate Accounting and Reporting Standard' (revised 2015), and international assurance best practice including the International Standard on Assurance Engagements (ISAE) 3000 – 'Assurance Engagements other than Audits and Reviews of Historical Financial Information' (revised) and the International Standard on Assurance Engagement (ISAE) 3410- Assurance Engagements on Greenhouse Gas Statements, issued by the International Auditing and Assurance Standards Board. To ensure consistency in our assurance process, we conducted our work in accordance with DNV's assurance methodology, Verisustain™, applying only the pertinent sections of the protocol relevant to the specific purpose of the activity. This methodology ensures compliance with ethical requirements and mandates planning and execution of the assurance engagement to obtain the desired level of assurance.

DNV applies its own management standards and compliance policies for quality control, which are based on the principles enclosed within ISO IEC 17029:2019 - Conformity Assessment - General principles and requirements for validation and verification bodies, and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards, and applicable legal and regulatory requirements.

The procedures performed in a limited assurance engagement vary in nature and are shorter in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained if a reasonable assurance engagement had been performed.

### Disclaimers

The assurance provided by DNV is limited to the selected indicators and information specified in the scope of the engagement. DNV has not conducted an assessment of the reporting organisation's overall adherence to reporting principles or the preparation of the report. Therefore, no conclusions should be drawn regarding the reporting organization's compliance with reporting principles or the quality of the overall report. The assurance provided by DNV is based on the selected indicators and information made available to us at the time of the engagement. DNV assumes no responsibility for any changes or updates made to the indicators or information after the completion of the assurance engagement.

### Use and distribution of our Independent Limited Assurance Report

This report is intended solely for the information and use of the Directors of Wickes and is not intended to be and should not be used by anyone other than these specified parties. DNV expressly disclaims any liability or co-responsibility for any decision a person or an entity may make based on this Independent Limited Assurance Report.

### Our competence, independence and quality control

DNV established policies and procedures are designed to ensure that DNV, its personnel and, where applicable, others are subject to independence requirements (including personnel of other entities of DNV) and maintain independence where required by relevant ethical requirements. This engagement work was carried out by an independent team of sustainability assurance professionals. DNV did not provide any services to Wickes in the reporting period that could compromise the independence or impartiality of our work. Our multi-disciplinary team consisted of professionals with a combination of environmental and sustainability assurance experience.

### Inherent limitations

DNV's assurance engagements are based on the assumption that the data and information provided by Wickes to us as part of our review have been provided in good faith, is true, complete, sufficient, and authentic, and is free from material misstatements. Because of the selected nature (sampling) and other inherent limitations of both procedures and systems of internal control, there remains the unavoidable risk that errors or irregularities, possibly significant, may not have been detected. The engagement excludes the sustainability management, performance, and reporting practices of the Company's suppliers, contractors, and any third parties mentioned in the Report. We understand that the reported financial data, governance and related information are based on statutory disclosures and Audited Financial Statements, which are subject to a separate independent statutory audit process. We did not review financial disclosures and data as they are not within the scope of our assurance engagement.

**Basis of our conclusion**

We are required to plan and perform our work in order to consider the risk of material misstatement of the Selected Information; our work included, but was not restricted to:

- Conducting interviews with Wickes’s management to obtain an understanding of the key processes, systems, and controls in place to generate, aggregate, and report the Selected Information;
- Performing limited substantive testing on a selective basis of the Selected Information to check that data had been appropriately measured, recorded, collated, and reported;
- Reviewing that the evidence, measurements, and their scope provided to us by Wickes for the Selected Information is prepared in line with the Criteria;
- Assessing the appropriateness of the Criteria for the Selected Information; and
- Reading the Report and narrative accompanying the Selected Information within it with regard to the Criteria.

In performing these activities, we came across the following limitations to the scope of the agreed assurance engagement

- a. We had no direct access to the full list of Emission Factors used for calculating the emissions associated with Scope 3 emissions Category 1 and Category 6 as these were managed by a Contractor, but material sources of product emission factors were sighted on a sample basis onsite.
- b. Scope 3 Categories 2, 4, 8, 10, 14, and 15 are not part of the assurance engagement and DNV did not assess the materiality of these Scope 3 categories.

We found a limited number of non-material errors and these were corrected prior to inclusion in the Report.

**Responsibilities of the Directors of Wickes and DNV**

The Directors of Wickes have sole responsibility for:

- Preparing and presenting the Selected information in accordance with the Criteria;
- Designing, implementing and maintaining effective internal controls over the information and data, resulting in the preparation of the Selected Information that is free from material misstatements;
- Measuring and reporting the Selected Information based on their established Criteria; and
- Contents and statements contained within the Report and the Criteria.

Our responsibility is to plan and perform our work to obtain limited assurance about whether the Selected Information has been prepared in accordance with the Criteria and to report to Wickes in the form of an independent limited assurance conclusion, based on the work performed and the evidence obtained. We have not been responsible for the preparation of the Report.

**DNV Supply Chain and Product Assurance**

DNV Business Assurance Services UK Limited is part of DNV – Supply Chain and Product Assurance, a global provider of certification, verification, assessment and training services, enabling customers and stakeholders to make critical decisions with confidence.
